

TSA Information for Diesel Service Technology and Electric Power Generation

October 14, 2019

SAC Prefix and Name: **DS_EPG – Diesel Service Technology / Electric Power Generation Service Tech**

Name of faculty member responsible for TSA reporting: **Trace Phillis**

Description of TSA(s) in 300 words or less:

The Diesel Service TSA is the externally-credentialed ASE (Automotive Service Excellence) exam taken at the end of each term. This is a 40-question proctored exam on specific diesel service topics and procedures.

The Electric Power Gen TSA is an externally-credentialed EGSA (Electrical Generating Systems Association) exam taken at the completion of the program. This is a 200 question proctored exam on power generation topics and procedures.

Maximum score possible:

For DS: 40

For EPG: 200

Benchmark score (score that “meets expectations” for completing students):

For DS: 20

For EPG: 100

Clarifying notes: None
