

PPE Questionnaire 2021-22

Google Form Survey

Answer as honestly and thoroughly as you can. There are no right or wrong answers. None of this information will be shared with clinical sites; it is for department use only. Thank you!

1. When entering Covid and other isolation rooms, do you recall and utilize what you learned in Patient Care labs regarding proper don-/doffing of PPE?

Always

Often

Sometimes

Rarely

Never

Or fill in blank

2. What is the order of PPE DOFFING you were taught in Patient Care labs?

gown, mask, gloves, cap

gown/gloves, mask, cap

mask, cap, gloves, gown

gloves, mask, cap, gown

3. At clinic, are you consistent in following this order?

Always

Often

Sometimes

Rarely

Never

4. What are the perceived barriers to consistency in wearing PPE (and proper don/doff protocol)? Choose all that apply.

Tech pressure

In a rush

Unsure what PPE is indicated

Lack of PPE supplies

Don't feel Covid is serious

Other...Fill in blank

5. Do you observe technologists don-/doffing in the “textbook” prescribed order/method?
- Always
 - Often
 - Sometimes
 - Rarely
 - Never
6. Do you or the techs over- or under-protect yourselves differently than established Covid PPE requirements at your facility?
- Yes
 - No
 - Sometimes
 - Other...Fill in blank
7. If you answered yes to previous question, why do you think this is? (fill in field)
8. Do you feel safe in your PPE while at clinicals?
- Yes
 - No
 - Maybe
 - Other...Fill in blank
9. Once you graduate and work independently as a licensed tech, do you plan to do anything differently regarding don-/doffing PPE than you do currently as a student working alongside a tech?
- Yes
 - No
 - Other...
- Why or why not? Please explain.
10. Do you have any recommendations/suggestions for the PCC Program to improve isolation/PPE don-/doffing instruction in the Patient Care course/lab? (fill in field)
