CLIMB Center

- Greetings
- SAC chairs' feedback: compensation and training.
- Concrete goal: form an "expert" peer review team for summer 2018.
 - About 12 - 14 people needed for "normal" reports.
 - ? scoring college-wide assessment, with rubric and assignment feedback.
 - Do we do mixed teams of LDC and CTE or maintain the distinction in the process?
- New forms needed: peer review with no point values, (brief) peer review for college-wide assessment, revised "normal" reporting templates.
- How should the college identify the courses / instructors who are asked to contribute artifacts for college-wide assessment in a given year? E.g., is this a SAC-specific issue, or is it distinct from SAC identity?
- What form should ongoing training take for gen ed instructors?
